

Division

For each division problem below, write whether it tells you the number of groups or the number in each group.

1. 25 divided into 5 groups. _____

2. 30 divided into groups with 6 in each group. _____

3. 36 divided into 4 groups. _____

4. 24 divided into 8 groups. _____

5. 20 divided into groups with 2 in each group. _____

6. 40 divided into 10 groups. _____

7. 40 divided into groups with 4 in each group. _____

8. 36 pencils divided into 2 pencil boxes. _____

9. 16 pencils divided into boxes with 4 in each box. _____

10. 50 CD's stacked in piles with 25 in each pile. _____

Challenge: On a separate sheet of paper, try writing what the *question* for each of the above problems would be. Here's a hint: Problem #1's question would be "How many in each group?" Try to think of the questions for the other problems.
